DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on June 05, 2007 has been entered.

Response to Amendment

2. Applicant's amendment filed on June 05, 2007 has been considered and entered in full.
3. Applicant's arguments with respect to respective amended claims have been considered and are persuasive. Since all the claims were previously allowed in the last office action mailed on 07/14/2006, applicant's amendments do not change the scope of the claims and are therefore allowed for the same reasons as applied before.

Allowable Subject Matter

Reasons of Allowance:

4. Claims 1, 3-15, 17-21 and 23-34 (renumbered as 1-31) are allowed.

The following is an examiner's statement of reasons of allowance:

The reasons of allowance for claims 1, 3-15, 17-21 and 23-34 should be evident from the office action mailed on 07/14/2006. Both the instant invention and the closest prior art (the combined invention of Anderson, U.S. Patent No. 6,567,122 and Luster, U.S. Patent No. 5,715,051) are directed to a human/machine interface for a machine vision system which comprises of a processing element and a memory connected to the image element, which further includes a web server or an interface element and this web server or an interface element can be accessed by outer world through wired or wireless ports. The closest prior art does teach the screens being construed and arranged for selecting functions **for configuring and controlling** the machine vision system but does not teach the limitation **“the screens being constructed and arranged for selecting functions for training the machine vision system to define measured parameters of the viewed object”** as recited in claims 1, 4, 12, 20 and 29. Therefore claims 1, 4, 12, 20 and 29 are allowed. All other claims depending on claims 1, 4, 12, 20 and 29 are allowable at least by dependency on claims 1, 4, 12, 20 and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Manav Seth whose telephone number is (571) 272-7456. The examiner can normally be reached on Monday to Friday from 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bhavesh Mehta, can be reached on (571) 272-7453. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
